# Geological Society of London *Special Publications* – Online Archive

Special Publications are renowned for their high quality of science and production. Each volume focuses on a specific theme and represents a balanced, state-of-the-art treatment of the subject matter.

Purchase Special Publication archives of volumes 1 to 400 outright for a one-off fee allowing perpetual access.

Download a list of the Special Publication titles in the various archives from [www.geolsoc.org.uk/lcaccess##SParchive](http://www.geolsoc.org.uk/lcaccess##SParchive)  
MARC records are available from- [www.geolsoc.org.uk/MARCrecords](http://www.geolsoc.org.uk/MARCrecords)

All Special Publication volumes are available online on payment of an annual subscription fee (for the Special Publications‡ alone, or as part of Lyell Collection Complete†).

The 400 volumes are available in four separate archives:

	SP Volumes	Number of articles	Number of pages	UK end users	European Union end users	Europe and Rest of World end users
SP Archive 1	1 - 100	2,500	41,000	£5,324 + VAT	£5,324 + VAT	£5,324 / US\$10,648

Please contact one of the regional agents listed on page 7 if you require a multi-site or global access license.

# Journal of the Geological Society - Online Archive

Journal of the Geological Society (JGS) publishes topical, high-quality recent research across the full range of Earth Sciences. Papers are interdisciplinary in nature and emphasize the development of an understanding of fundamental geological processes. Broad interest articles that refer to regional studies, but which extend beyond their geographical context are also published.

The JGS Archive (1845-2007) includes over 17,000 articles and comprises over 150 years of geoscience research, including historically important content from many eminent scientists. Access the very earliest geological research from the greats such as Darwin, Murchison and Buckland to modern cutting edge research from an international field of authors.

The *Quarterly Journal of the Geological Society* (1845 to 1970) was re-named the *Journal of the Geological Society* in 1971.

All JGS volumes are available online on payment of an annual subscription fee (for Journal of the Geological Society alone, or as part of Lyell Collection Complete).

JGS 1845 to 2007 content is available as one archive purchase or in three individual archives:

	Years of content	UK end users	European Union end users	Europe and Rest of World end users
JGS Archive 1845-2007	1845 - 2007	<b>Introductory offer:</b> £14,500 + VAT <i>Save £3,000</i>	<b>Introductory offer:</b> £14,500 + VAT <i>Save £3,000</i>	<b>Introductory offer:</b> £14,500 / US\$29,000 <i>Save £3,000 / US\$6,000</i>

**Please contact one of the regional agents listed on page 7 if you require a multi-site or global access license.**

## What is *Online First*?

*Online First* is a feature offered through the Geological Society's electronic content platform, the Lyell Collection. It enables typeset articles to appear online before the final volume or issue is complete.

This feature is available for 2019 journals and Geological Society of London *Special Publications*.

All *Online First* articles on the site are in their final PDF format apart from pagination, i.e. they have been accepted for publication, copyedited, typeset, proofed and corrected.

## Accepted Manuscripts

In 2018 the Geological Society began posting Accepted Manuscripts for Lyell Collection content within 2 weeks of acceptance to facilitate early access to research and citation for authors and researchers. Digital article identifiers are published for Accepted Manuscripts and registered with CrossRef allowing permanent resolution to the final Version of Record when it is published.

## Access entitlements for current institutional subscribers #

*Lyell Collection Complete*<sup>†</sup> subscribers can view the full text of all *Online First* articles and accepted manuscripts in the Lyell Collection.

*Special Publications*<sup>‡</sup> subscribers can view the full text of all *Special Publication Online First* articles and accepted manuscripts.

Subscribers to individual journals can view the full text of *Online First* articles and accepted manuscripts in the relevant journal.

# Perpetual access is only available to *Online First* articles or accepted manuscripts published in a completed volume or issue within the subscribed-to calendar year.

*Online First* articles and accepted manuscripts are also available using pay-per-view. Please see [www.geolsoc.org.uk/ppv](http://www.geolsoc.org.uk/ppv) for details of short-term access options.

### Special Publications

Special Publications are renowned for their high quality of science and production. Each volume focuses on a specific theme and represents a balanced, state-of-the-art treatment of the subject matter. Articles from each volume are available *Online First* months before the hardcopy appears in print. The Society publishes 12 - 20 volumes each year.

### Engineering Geology Special Publications

This successful series is devoted to the wide range of engineering geology and geotechnical topics: each volume provides balanced coverage of its subject.

### Memoirs

Memoirs are definitive treatments of their subjects by acknowledged experts. They may be edited collections of papers, or can be written by a single group of authors.

### Petroleum Geology Conference Series

The fully edited and peer-reviewed Proceedings of the 4<sup>th</sup>, 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> conferences in this prestigious series are hosted on the Lyell Collection.
