

Seasons greetings from the Geological Society of London

Welcome to the latest edition of the Lyell Collection newsletter and the last for 2019. We would like to take the opportunity to wish you seasonal greetings and a happy new year.

There is still time to renew for 2020

2020 subscription prices have been published. To renew your subscription before access lapses please contact your usual representative or speak to Dawn Angel directly on sales@geolsoc.org.uk. Renewed subscriptions don't have to be re-activated each subscription year.

MARC records and KBART data added to WorldCat®

After advice from librarian colleagues MARC records and KBART files are now added to the WorldCat® knowledge base each month to ensure the latest content selections are available to aid discoverability. MARC records and KBART data are also held on our [website](#).

The Geological Society continues to provide access to developing countries

We continue to offer free online access to approved institutions and NGOs in developing countries through the consortium contacts developed by INASP. To find out more [click here](#)

Metrics

Metrics All GSL journals have journal impact factors in addition to article-level metrics and usage data on individual articles available through Altmetrics. SNIP (Source Normalised Impact per Paper) measures the journal's contextual citation impact and the SJR (SCImago Journal Rank) measures the average scientific prestige of a journal article. GSL is a signatory of the San Francisco [Declaration on Research Assessment](#) (DORA) and promotes article-level metrics and usage data on individual articles at www.geolsoc.org.uk/CitationMetrics

Usage statistics

You can download COUNTER 5 usage statistics from the [Highwire Administrator Toolbox](#). For UK HE and FE sector JUSP provides a [single gateway to access usage statistics](#).
